

East Waterway OU

Anthropogenic Background Meeting #1

Participants: EPA, East Waterway Group (Port of Seattle, City of Seattle, and King County), Ecology, Muckleshoot Tribe, Suquamish Tribe

September 9, 11 am - 1 pm

Meeting	Purpose	Materials (Prepared by EWG)	Outcome
#1 Define the problem, identify the goals of the AB evaluation, and discuss physical Conceptual Site Model (CSM).	Define inputs into AB. Identify inputs to the EW that affect long-term concentrations that can be included in AB. Review the CSM from the EW FS.	A draft narrative problem definition and goals prior to the meeting (~1 page narrative) and summary of EW CSM evaluations from the FS.	Agree upon problem, goals, and key elements of the CSM important to determining AB.

Agenda

1. Introductions
2. Background on project status and relevance of anthropogenic background
3. Review and discuss problem definition
4. Review and discuss goals of this evaluation
5. Review physical Conceptual Site Model (CSM) from Feasibility Study (FS)
